-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14, drawn to bicyclic baicalein derivatives and their pharmaceutical compositions.

Group II, claims 1-3 and 8-10 drawn to tricyclic baicalein derivatives and their pharmaceutical compositions.

Group III, claim(s) 15-21, drawn to a method of inhibiting P-gp 170 or Cyp450 in a patient.

Group IV, claim(s) 22-29, drawn to a method of treating cancer .

Group V, claim(s) 30-36, drawn to a method of increasing the sensitivity of tumor or cancer cells in a patient to anti-cancer agents.

Group VI, claim(s) 37-48, drawn to a method of facilitating or enhancing the bioavailability of another bioactive agent or drug.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The instant broad genus of baicalein derivatives is anticipated by many compounds synthesized in many references. An example is cited here, It is US Patent 6,025,387 which discloses 5-hydroxy-6,7-dimethoxy flavone as useful in treating ulcers. Thus the presumption of a single general inventive concept is overcome.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of an invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Further applicants must elect a single compound if the compound group is elected or a single baicalein derivative as active ingredient if one of the methods of use is elected in case a generic claim is not found allowable.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication should be directed to Bernard Dentz at telephone number 571-272-0683.
